

FOR IMMEDIATE RELEASE

Sapio Sciences Announces that Biodesix Inc Selects Exemplar LIMS

Baltimore, MD – February 16, 2009 – Sapio Sciences is pleased to announce that Biodesix Inc has selected Exemplar LIMS as its Laboratory Information Management Solution (LIMS). Biodesix needed a solution to address all of the following requirements:

- Regulatory compliance with HIPAA guidelines
- Full field level audit logging and secure login
- Detailed Workflows for Tracking Sample Receipt and storage
- BioBanking with LIMS auto-assignment to freezer locations with auto-archiving
- Detailed sample processing workflows with automatic plate handling
- Integration with Mass Spec device
- Experimental data management and tracking

As a compliant lab servicing physicians who send Biodesix their samples, Biodesix needed a solution that could be adapted quickly to their needs, yet maintain regulatory compliance to secure patient information. Due to impending regulatory changes, Biodesix needed a solution that could be implemented in an extremely tight timeframe.

Kevin Cramer, Regional Sales manager, “We are gratified that Biodesix chose Exemplar LIMS. We felt that their extensive workflows and other data tracking requirements combined with their short timeline for delivery made Exemplar LIMS the clear choice. The ease of configuration of Exemplar along with its extensive built-in feature set ensured we could deliver what they needed in the timeframe allotted. We have enjoyed working with Biodesix and look forward to working closely with them in the future.”

About Sapio Sciences LLC

Sapio Sciences is a leading provider of LIMS and Data Management software, enabling scientists to manage samples, protocols and clinical trials as well as track detailed protocols. Exemplar LIMS breaks new ground in its breadth of functionality and ease of configuration. With built-in Sample Management, Step-by-Step protocol tracking and data management, Exemplar LIMS addresses the full life cycle of samples from receipt to processing and analysis. Sapio will continue to break new ground in ease of use and breadth of functionality across its product line, enabling organizations to reduce costs while increasing productivity and efficiency of both laboratories and researchers alike. Sapio has strong working relationships with leading platform vendors such as Affymetrix, Illumina and Applied Biosystems ensuring compatibility with technology from these leading companies.

About Biodesix Inc.

Biodesix is a pioneer in enabling personalized medicine by focusing on the unique characteristics of patients using mass spectrometry based molecular diagnostics. By rapidly and cost-effectively analyzing the concurrent presence of many proteins in patient samples, Biodesix's products will improve the ability of physicians to diagnose, tailor patient treatment, and provide on-going monitoring.

Biodesix has focused on applying signal processing, statistical analysis, and an in-depth understanding of the physics of mass spectrometers to build a bio-analysis platform that can be used to develop diagnostic "classifiers" for use by researchers, drug developers and clinicians. These classifiers can **reproducibly**, and **with clinically significant accuracy**, distinguish among biological states or differentiate patient responses to a therapeutic intervention.
