

FOR IMMEDIATE RELEASE

Sapio Sciences Announces Exemplar LIMS v2, Extending its Flexibility and Functional Leadership

York, PA – February 26, 2008 – Sapio Sciences is pleased to announce the immediate availability of Exemplar LIMS v2. This release extends Exemplar LIMS leadership position as the most flexible and cost effective solution in the LIMS application space. Key additions in this release include:

- ▶ The Workflow Manager, which enables easy creation of complex workflows in minutes to track any laboratory procedure and enforce data collection at key points in any protocol.
- ▶ Advanced Plug-In Architecture that makes extending Exemplar straightforward leading to rapid integration with existing applications and equipment/robotics.
- ▶ Enhancement of Data Management capabilities to allow for easy creation of point and click export criteria of Biomarker data for analysis by third party tools.
- ▶ LIMS customization wizard that allows for the creation of forms and fields in minutes and with no programming and complete backward compatibility.
- ▶ New reports including storage unit report showing detailed inventory for freezers/boxes/drawers, etc. and system object inventory reporting.
- ▶ Document management capability where any type of document such as Word docs (e.g. consent forms), Spreadsheets, Image files etc. can be loaded into the LIMS and associated with LIMS Objects like samples, aliquots, clinical subjects, experiments, etc.

"This new release significantly extends the capabilities of Exemplar LIMS and solidifies it as a complete solution to any laboratories sample/protocol/data tracking needs," says Kevin Cramer, VP of Sales and Marketing at Sapio. "Our development team has done an excellent job of continuing our thesis of developing key features that are major advancements in our product, yet maintaining our ease of use and continuing to lower the total cost of ownership of Exemplar LIMS."

"Exemplar LIMS is proving to be a 'paradigm breaker'", continues Kevin, "Our customers do not need years of extensive consulting work and internal IT work to get Exemplar LIMS up and running. Instead, Exemplar is often up and running, complete with customization, in weeks or a few months. We are going to continue to drive the cost benefit advantage of our product. We are also committed to continually enhancing the capabilities of Exemplar to further address the complete pipeline from R&D through clinical trial management in one cost effective solution."

Exemplar LIMS v2 has already been selected by leading labs like Dr. Hakon Hakonarson's lab at Children's Hospital of Philadelphia, ExonHit Therapeutics and Dr. Claire Fraser's IGS group at University of Maryland.

Sapio Sciences Exemplar LIMS v2 is available immediately. For more information or to schedule a product demonstration, visit <http://www.SapioSciences.com>.

About Sapio Sciences LLC

Sapio Sciences is a leading provider of LIMS and Data Management software, enabling scientists to manage samples, protocols and clinical trials. Sapio will continue to break new ground in ease of use and breadth of functionality across its product line, enabling organizations to reduce costs while increasing productivity and efficiency of both laboratories and researchers alike. Sapio has strong working relationships with Affymetrix, Illumina, Applied Biosystems, Expression Analysis and Genome Explorations ensuring compatibility with technology from these leading companies.
