

FOR IMMEDIATE RELEASE

Center for Epigenetics (Feinberg Lab) at Johns Hopkins Selects Exemplar LIMS for Epigenetic Research

Baltimore, MD – Oct 3, 2011 – Sapio Sciences is pleased to announce that the Center for Epigenetics at Johns Hopkins has selected Exemplar LIMS as its Laboratory Information Management (LIMS) and Electronic Lab Notebook (ELN) Solution. Sapio was chosen because of Exemplar's ability to manage a diversity of data from different domains and for its ability to implement workflows/processes rapidly. The Center for Epigenetics will be utilizing Exemplar LIMS capabilities for sample management, electronic lab notebooks as part of its groundbreaking epigenetic studies. In particular, Exemplar LIMS will manage the Illumina HiSeq and Illumina Infinium platform workflows.

About Sapio Sciences Llc

Sapio Sciences is a leading provider of LIMS and Data Management software, enabling scientists to manage samples, protocols, assay data and clinical trials. Exemplar LIMS breaks new ground in its breadth of functionality and ease of configuration. With built-in Sample Management, Step-by-Step protocol tracking (ELN), data management and integrated analytics, Exemplar LIMS addresses the full life cycle of samples from receipt to processing and analysis. Sapio will continue to lead in ease of use and breadth of functionality across its product line, enabling organizations to reduce costs while increasing productivity and efficiency of both laboratories and researchers alike. Sapio has strong working relationships with leading platform vendors such as Affymetrix, Illumina and Applied Biosystems ensuring compatibility with technology from these leading companies.

About the Center for Epigenetics

The Epigenetics Center of the Institute for Basic Biomedical Sciences, led by Andrew Feinberg MD MPH, has brought together an outstanding team of multidisciplinary investigators to explore the epigenetic basis of normal development and disease. One of the Center's major goals is to develop novel technology that will provide cutting edge tools to the Hopkins community allowing our scientists to make the first discoveries in this exciting frontier.
