

FOR IMMEDIATE RELEASE

Next Gen Sequencing Lab Selects Exemplar LIMS for Sample Management and Workflow Tracking

Baltimore, MD – September 24, 2010 – Sapio Sciences is pleased to announce that United States Army Medical Research Institute at Ft. Detrick has selected Exemplar LIMS as its Laboratory Information Management Solution (LIMS). USAMRIID utilizes the Illumina Genome Analyzer and Roche 454 Sequencing Technology in its infectious disease research program.

About Sapio Sciences Llc

Sapio Sciences is a leading provider of LIMS and Data Management software, enabling scientists to manage samples, protocols, assay data and clinical trials. Exemplar LIMS breaks new ground in its breadth of functionality and ease of configuration. With built-in Sample Management, Step-by-Step protocol tracking, data management and integrated analytics, Exemplar LIMS addresses the full life cycle of samples from receipt to processing and analysis. Sapio will continue to break new ground in ease of use and breadth of functionality across its product line, enabling organizations to reduce costs while increasing productivity and efficiency of both laboratories and researchers alike. Sapio has strong working relationships with leading platform vendors such as Affymetrix, Illumina and Applied Biosystems ensuring compatibility with technology from these leading companies.

About USAMRIID

USAMRIID, (Fort Detrick, Maryland) conducts basic and applied research on biological threats resulting in medical solutions to protect military service members.

USAMRIID, an organization of the U.S. Army Medical Research and Materiel Command, is the lead medical research laboratory for the U.S. Biological Defense Research Program. The Institute plays a key role as the only laboratory in the Department of Defense (DoD) equipped to safely study highly hazardous infectious agents requiring maximum containment at biosafety level (BSL)-4.

As the center of excellence for DoD medical biological defense research, USAMRIID's challenge is to maintain its world-class scientific and technology base while being responsive to its primary customer—the warfighter.
