

FOR IMMEDIATE RELEASE

Top 15 Pharmaceutical Company selects Exemplar LIMS for Software Projects

Baltimore, MD – August 18, 2009 – Sapio Sciences is pleased to announce that a top 15 Pharmaceutical Company has licensed Exemplar LIMS for use as a development platform for key internal lab related software projects. This company has extensive needs for laboratory and consumables management in numerous labs, as well as other Java-based development projects, which may also utilize the Exemplar LIMS Framework.

The key features of Exemplar LIMS that factored in the decision included:

- ✓ Ability to rapidly create applications in significantly less time via the Data Designer
- ✓ Ability to implement detailed workflows for protocol tracking
- ✓ Java based architecture
- ✓ Easy Implementation of Business Intelligence
- ✓ Regulatory compliance of the application

“We are pleased to have been selected by this large pharmaceutical firm, which is one of the top 15 pharmaceutical companies in the world.”, says Julia Neel, Chief Technology Officer at Sapio Sciences, “Exemplar LIMS will enable them to rapidly build applications to meet their many and diverse needs, while lowering their overall development and maintenance costs.”

Julia continues, “Furthermore, Exemplar LIMS’s adaptable framework ensures that if the data tracking or workflow processes need to change, that the application can be easily modified in support of the new requirements. We look forward to working with their team on implementing Exemplar LIMS based applications in previously unseen timeframes.”
