

FOR IMMEDIATE RELEASE

Lieber Institute Selects Exemplar LIMS for Research

Baltimore, MD – August 3, 2011 – Sapio Sciences is pleased to announce that the Lieber Institute has selected Exemplar LIMS as its Laboratory Information Management (LIMS) and Electronic Lab Notebook (ELN) Solution. Sapio was chosen because of Exemplar's ability to manage a diversity of data from different domains and for its ability to implement workflows/processes rapidly. Lieber will be utilizing Exemplar LIMS capabilities for sample management, electronic lab notebooks and scientific data management.

About Sapio Sciences Llc

Sapio Sciences is a leading provider of LIMS and Data Management software, enabling scientists to manage samples, protocols, assay data and clinical trials. Exemplar LIMS breaks new ground in its breadth of functionality and ease of configuration. With built-in Sample Management, Step-by-Step protocol tracking (ELN), data management and integrated analytics, Exemplar LIMS addresses the full life cycle of samples from receipt to processing and analysis. Sapio will continue to lead in ease of use and breadth of functionality across its product line, enabling organizations to reduce costs while increasing productivity and efficiency of both laboratories and researchers alike. Sapio has strong working relationships with leading platform vendors such as Affymetrix, Illumina and Applied Biosystems ensuring compatibility with technology from these leading companies.

About Lieber

Lieber's mission is to develop and support a research program that translates basic genetic and molecular mechanisms of schizophrenia and related developmental disorders into clinical advances that change the lives of affected individuals.

Our unique structure allows scientists in a variety of disciplines to build focused research programs targeting specific goals. Ultimately, all research efforts will support the Institute's therapeutic discovery track—improving present treatment options, rescuing failed medications, extending existing drug indications, and discovering efficacious new compounds.
