

Here's How We Get Your Team Sapio Enabled

Role-based, self-paced foundational training on Sapio's standard, out-of-the-box functionality for administrators, developers and end users. Learn through interactive tutorials, quizzes, knowledge checks and progress tracking.

What is Sapio eLearning?

Build familiarity with core platform concepts and navigation, working with data and records, common laboratory workflows, and role-relevant administration, configuration, experiment execution and technical integration.

Each lesson includes:

- Learning objectives
- Interactive, hands-on tutorials
- Quizzes and knowledge checks
- Progress tracking

Your Enablement Journey

Explore Walk through eLearning and the role-based paths.	Enroll & assign Provide learner names, emails and assigned paths.	Learn & practice Complete lessons; use a personal environment when purchased.	Track progress Learners track progress; reporting depends on purchased scope.

Training options & pricing

eLearning Onboarding Package 4 seats (3 months); 2 environments (1 year); 2 x 1-hour group Q&A; 3 Sapio-provided reports.	\$1,000
Standard eLearning seats Per named learner for 3 months. All three paths have the same price.	\$150
Customer-Managed Training Space Your materials and on-demand progress; 2 admin seats; up to 4 hours of enablement.	\$1,000/year
Personal training environment Per environment, with sample data. Recommended for Developer learners.	\$200/year

Sample course	User	Admin	Dev
Design Principles & Data Model	✓	✓	✓
Basic Navigation	✓	✓	✓
Sample Management	✓	✓	✓
Materials Management	✓	✓	✓
User Management		✓	✓
Python & Sapio REST API			✓
Webhooks Fundamentals			✓

User = End-User; Dev = Developer. Full curriculum available separately.

Reporting: Onboarding includes 3 Sapio-provided reports. Standard seats include progress tracking. A Customer-Managed Training Space provides ongoing, on-demand access to learner progress.

Personal training environments are recommended for Developer-path learners. Environments do not extend the eLearning access term.
